The **DOWN UNDER**  
COLLECTION deluxe

# Quickstart

**About the Graphic Files:** The Down Under Collection contains graphic files in different formats:

Colour GIF, Colour JPEG, B & W GIF.

These graphic files do not do anything on their own, but must be placed into documents created with your favourite word processing, desktop publishing, presentation or website creation software. You may use the graphic files directly from the CD, or copy one or more of the folders to your hard drive and access the files from there. *The CD does not need to be in the CD-ROM Drive if you copy the graphics folders to your hard drive.*

**Catalogue:** The Down under Collection Deluxe CD also contains a catalogue which, when installed to the hard drive, allows you to view thumbnails of each graphic, identify the location/path of each graphic file on the CD, print out an image catalogue, and view instructions on how to use the graphic files with several popular applications. *N.B The catalogue MUST be installed on the hard drive. It cannot be operated from the CD.*

**IMPORTANT !**

# Installation

Please see  
Reverse

## Windows

1. Insert the CD into the CD drive of your computer.
2. Click on the "START" button, then click "RUN", then click "BROWSE", then navigate to your CD drive where the Down Under Collection CD is located.

Find the Setup file and click on it and click "OPEN", then click "OK".

This will start the Installation process. Once it starts, just follow the on-screen instructions to install the program.

3. The Down Under Collection Deluxe Catalogue can then be launched from the shortcut in the Programs Menu.

## Mac Classic & OSX

1. Insert the CD in the drive.
2. Double click the CD icon to open it.
3. Copy (drag and drop) the "Image Catalogue" folder to the hard drive.
4. To launch the program, open the folder Image Catalogue that you copied to your hard drive and double-click on the file called "DUCD Image Catalogue".
5. The folders containing the actual graphics can also be copied to your hard drive if you wish. Create a folder called Down Under Collection Deluxe and copy the folders B&W gif, Colour gif and Colour jpeg to this folder.

*Note: The image browser program runs only on OS9. Use Classic mode if you want to run it on OSX.*

### **Computer System Requirements:**

*The graphics are designed to be used with a wordprocessing, publishing or web publishing program. The system requirements are those of the program with which the graphics will be used.*
